

Key Vocabulary

Ordnance Survey	A detailed map produced by the British or Irish government map-making organization.
Grid Reference	A map reference indicating a location in terms of a series of vertical and horizontal grid lines identified by numbers or letters.
Compass	A tool for finding direction. A simple compass is a magnetic needle mounted on a pivot, or short pin.
Key	A list of symbols that appear on the map. For example, a church on the map may appear as a cross, a cross attached to a circle, a cross attached to a square.
Cartography	The art or technique of producing maps.
Map Index	The index page lists all the continents, countries and cities in the book in alphabetical order and all the pages they appear on; the index covers maps, charts and lists.
County	A section into which some countries are divided.
Continent	One of the earth's seven major areas of land. The continents are Africa, Antarctica, Asia, Australia, Europe, North America, and South America.
Northings and Eastings	Lines found on maps which are numbered. Northings are horizontal lines and Eastings are vertical lines
Latitude	Horizontal lines that measure distance north or south of the equator.
Longitude	Longitudes are vertical lines that measure east or west of the meridian.

Locational Knowledge Skills

- To locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America by using an atlas.
- To name and locate cities of the UK and your identifying human and physical characteristics by using an atlas.

Human and Physical Feature Knowledge Skills

- To name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics and land-use patterns; and understand how some of these aspects have changed over time by comparing maps and photographs of places.

Map, Atlas, Globe Skills, Compass & Gridwork Skills, & Fieldwork Skills

- To locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America by using an atlas.
- To use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied by using the index and co-ordinates, as well as finding features on a map.
- To use symbols and a key (including the use of Ordnance Survey maps) to build knowledge of the United Kingdom and the wider world by identifying landmarks shown on an Ordnance Survey map.
- To use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build your knowledge of the United Kingdom and the wider world by planning a journey and describing routes on a map.

The grid reference for the arrow is 1943
